EDUCATION

Data Engineering |
**National School of Applied Sciences
(ENSA), Al-Hoceima**
2024 – Present

Preparatory Cycle
**National School of Applied Sciences
(ENSA), Al-Hoceima**
2022 – 2024

Baccalaureate | Physics-Chemistry, Fr Option
Ibn Sina Qualifying High School, Nador
2022

SKILLS

Programming Languages : C, Java,
Python, SQL, PL/SQL, Matlab, R
Web Development : HTML, CSS,
JavaScript, Bootstrap, PHP
Data Analysis & Visualization : Python
(Pandas, NumPy, Matplotlib, scikit-learn),
Power BI
Databases : MySQL, PostgreSQL, Oracle,
MongoDB
Design and Modeling: Mersie, UML
Operating Systems: Linux (Ubuntu,
Fedora...), Windows
Other: Data Mining, Big Data, Data Lake,
Data Warehouse, Machine Learning, Deep
Learning, NLP, Docker, Git, GitHub, Gantt,
Scrum, Spring

LANGUAGES

- Tarifit: native language
- Arabic: fluent
- French: advanced
- English: intermediate
- Dutch: elementary
- Spanish: beginner
- Chinese: beginner

SOFT SKILLS

- Problem-solving
- Adaptability
- Teamwork
- Attention to detail
- Reliability

INTERESTS

Travel and cultural discovery

ABOUT ME

Second-year Engineering student in Data Engineering, specialized in data management, processing, and visualization, with skills in Big Data, Data Engineering, Artificial Intelligence, Machine Learning, and Deep Learning. I am looking for a 3-month internship starting in July 2026, where I can contribute to concrete and innovative projects while strengthening my technical and professional skills.

PROFESSIONAL EXPERIENCE

Intern – Radiology Department | Provincial Hospital Mohammed VI
(June 2025 – August 2025) Al Hoceima, Morocco

- Participated in the activities of the radiology department
- Assisted in the management of medical data and imaging

Intern: Development of a Digital Dashboard | Terra Nova EBS
(July 2025 – September 2025) Al Hoceima, Morocco

- Designed a Power BI dashboard for monitoring aeronautical purchases
- Integrated and visualized data using Power BI and Excel

ACADEMIC PROJECTS

Collaborative Annotation Platform — May 2026

- Web application for text annotation, annotation quality monitoring, and model training
- Tools: Spring Boot, Thymeleaf, MySQL/MariaDB, Spring Security, Python

TaaSim — Urban Mobility Big Data Platform — April 2026

- Big Data platform for urban mobility: GPS data ingestion, real-time processing, and demand forecasting
- Tools: Python, Kafka, Flink, Spark, MinIO, Cassandra, Grafana, Docker

JobIntelligent Data Platform — April 2026

- Job offers analysis and recommendation platform based on a Medallion architecture
- Tools: Python, Airflow, MinIO, PostgreSQL, FastAPI, Power BI, NLP, Docker

Batch Procurement Data Pipeline — Jan. 2026

- Batch procurement pipeline: ingestion, processing, net demand calculation, and supplier order generation
- Tools: Python, HDFS, Trino, PostgreSQL, Avro, Docker
- GitHub: <https://github.com/amina-dourdi/batch-procurement-data-pipeline>

Fashion-MNIST Classification — Dec. 2025

- Fashion-MNIST image classification and comparison of models (LogReg, SVM, Random Forest)
- Tools: Python (scikit-learn), preprocessing & scaling
- GitHub: <https://github.com/amina-dourdi/Fashion-MNIST-Classification-using-Machine-Learning>

House Prices Regression End-to-End — Dec. 2025

- End-to-end regression on Kaggle House Prices: EDA, feature engineering, and hyperparameter tuning
- Tools: Python (pandas, scikit-learn)
- GitHub: <https://github.com/amina-dourdi/machine-learning-regression-end-to-end>

MongoDB Performance Optimization & Sharded Cluster — Nov. 2025

- Data preparation and ingestion pipeline for FHV data into MongoDB
- Comparison and evaluation of indexes (single, compound, hashed) and their impact on performance
- Deployment of a MongoDB sharded cluster via Docker and scalability analysis
- Tools: Python, MongoDB, Dash/Plotly, Docker
- GitHub: <https://github.com/amina-dourdi/fhv-tripdata-mongodb-optimization>

Medical and Statistical Data Management — Mar. 2025

- Patient data entry application, disease tracking, and statistical analysis with visualization
- Tools: Python (Tkinter, Pandas, Matplotlib), Web (PHP, CSS, HTML, JavaScript), MySQL
- GitHub: <https://github.com/amina-dourdi/Medical-Data-Management-and-Statistics>

Weather Forecasting Application — Feb. 2025

- Real-time data retrieval and forecasting via OpenWeatherMap and Open-Meteo
- Tool: Python
- GitHub: <https://github.com/amina-dourdi/ApplicationWeather>

CERTIFICATIONS

- **Supervised Learning with Scikit-Learn — DataCamp**
Practical training in supervised learning models
- **Power BI Online Course — Udemy (2024)**
Certification in data visualization with Power BI
